SIGMADESIGN is proud to announce its certification of ISO/IEC 27001:2013, the international standard for information security.

(October 25, 2023) – **SIGMADESIGN** is proud to announce its recent certification of ISO/IEC 27001:2013, underscoring its solid commitment to data security, information system management, and client satisfaction.

ISO/IEC 27001:2013 is an internationally recognized standard for information security management systems, which works on the principles of confidentiality, integrity, and availability of data. Achieving this certification reflects our dedication to maintaining the highest standards in data protection and cybersecurity practices, and it is an affirmation of our pursuit of excellence in all aspects of our work.

What Does ISO 27001 Certification Mean for Our Clients?

Enhanced Data Security: ISO/IEC 27001:2013 further ensures that our clients' sensitive data is handled with care and protection. It involves a systematic approach to managing information security risks, which safeguards confidential information.

Improved Reliability: Our ISO/IEC 27001:2013 certification signifies that we have established robust systems to mitigate risks and prevent security breaches. This means our clients' projects are safe and it ensures consistent and reliable results.

Streamlined Collaboration: With ISO/IEC 27001:2013 certification, we've fine-tuned our internal processes to ensure more unified collaboration with our clients. This translates into smoother project execution and improved communication, helping us deliver results more efficiently.

Customer Trust: Our commitment to ISO/IEC 27001:2013 demonstrates our dedication to transparency and security. Clients can trust us to handle projects with professionalism and integrity.

Partnering with an ISO/IEC 27001:2013-certified firm like **SIGMADESIGN** is an excellent choice for moving projects to the next level. We want our clients and partners to know that we take data security and information management seriously and that the result is success for our clients.

There are many benefits to partnering with **SIGMADESIGN**. Our ISO/IEC 27001:2013 certification is an additional advantage. We prioritize data security and client satisfaction and are excited to bring the benefits of ISO 27001 certification to our clients' projects.
